SUMMARY

Detail-oriented Frontend Developer and Digital Design specialist proficient in HTML, CSS, JavaScript, Vibe coding, on-page SEO, off-page SEO, and backlink strategies. Consistently improving organic search rankings and user experience across digital platforms through technical development and creative execution.

EDUCATION

BANNARI AMMAN INSTITUTE OF TECHNOLOGY

AUG 2020 - APR 2024

Bachelor of Technology in Artificial Intelligence and Data Science - 8.31

WORK EXPERIENCE

Renavo Technology

JUN 2025 - PRESENT

Web Developer & SEO Executive

- Designed and developed 40+ responsive websites for clients using HTML, CSS, JavaScript, PHP, and Bootstrap, ensuring seamless user experience across all devices and browsers.
- Planned and executed on-page and off-page SEO strategies including keyword research, meta optimization, and quality backlink building to strengthen clients' Google search rankings.
- Collaborated with internal teams to deliver web solutions aligned with client branding, business goals, and project deadlines.
- Optimized existing websites for speed, performance, and search engine visibility, contributing to measurable growth in organic traffic.

Self-Employed

APR 2024 - PRESENT

Freelance Frontend Developer & SEO Specialist

- Independently built and delivered custom websites for clients across multiple industries using HTML, CSS, JavaScript, PHP, and Bootstrap with a focus on clean code and mobile-first design.
- Offered full-cycle SEO services including on-page content optimization, off-page backlink acquisition, and Google ranking strategies tailored to each client's niche.
- Managed client relationships end-to-end – from initial briefing and project scoping to final delivery, feedback, and post-launch support.
- Applied vibe coding techniques to rapidly prototype and iterate on creative web solutions, reducing turnaround time while maintaining quality standards.

Pheonix Solutions

JUN 2024 - NOV 2024

Devops Engineer Intern

- Conducted 50+ server audits (CIS benchmarks), patching vulnerabilities to improve security by 30%.
- Managed DNS/cPanel for 70+ domains, reducing downtime by 40% via optimized configurations.

PROJECTS

Trio World Academy – Official School Website [🔗](#)

DEC 2025 - FEB 2026

Type: Client Project (via Renavo Technology)

Tech Stack: PHP, CSS, JavaScript, Bootstrap

- Built the complete website for Trio World Academy, one of Bangalore's top international schools, covering 30+ inner pages across multi-level sections like admissions, academics, campus, events, and gallery – ensuring full mobile responsiveness and cross-browser compatibility throughout.
- Handled end-to-end on-page SEO across all pages including meta titles, descriptions, heading structure, and image alt tags, while maintaining consistent branding and design language to strengthen Google search visibility and overall user experience.

Type: Client Project (via Renavo Technology)

Tech Stack: HTML, CSS, JavaScript, Bootstrap

- Designed and developed the official website for George & Co Advocates, one of Bangalore's leading law firms with 30+ years of legal expertise, covering multi-level service pages across Civil, Criminal, Corporate, Family, Real Estate, RERA, and Labour Law – achieving a 3rd position ranking on Google search results.
- Executed comprehensive on-page SEO across all pages including meta titles, descriptions, heading structure, and image alt tags, while ensuring consistent brand identity, smooth navigation, and full mobile responsiveness to strengthen online visibility and client acquisition.

Smart Bus Safety Solutions

JUL 2023 - OCT 2023

Type: Academic Project (College Project)

Tech Stack: Android Studio, Java, XML, Firebase Realtime Database, Google Maps API, GPS Location Services, REST APIs

- Developed an Android application with real-time GPS tracking, a panic button, and passenger-driver communication to enhance transportation safety.
- Integrated a feedback tracking system to monitor performance and improve the user experience.
